

Town and Country Veterinary Clinic

Pre-Surgery Form

Pet's Name: _____

Date: _____

Like you, our greatest concern is the well-being of your pet. We will perform a physical examination before administering anesthesia; however, many vital body systems are undetectable without screening blood tests. These tests are especially important before any surgery. Our in-house laboratory is fully equipped to perform these important tests before your pet's procedure.

PRE-ANESTHETIC BLOODWORK

ACCEPT

DECLINE

HIGHLY RECOMMENDED

Test include CBC – Complete Blood Count
Heart, Liver, and Kidney Functions
Exam by a Doctor
Cost to you is \$120.00

DOG – Heartworm, Lyme's, Ehrlichia, Anaplasmosis - \$51.00

CAT – Heartworm, Feline Aids, Feline Leukemia - \$75.00

PAIN MANAGEMENT

To provide a greater level of comfort, I would like my pet to receive pre and post-surgical medication for pain relief.
Cost to you: CAT - \$25.00 or DOG - \$25.00

MICROCHIP -Option while under anesthetic

While not mandatory, the increase of lost pets has us recommending that every pet get microchipped.
Cost to you: \$85.00

I understand that during any procedure, unforeseen circumstances may arise that necessitate an extension or additional procedure be performed. I hereby authorize performance of such procedures as deemed necessary in the judgement of the professional staff and veterinarians. I understand the risks as part of the procedure. I also understand that there are no guarantees given or implied. I have read and understand this consent.

Please note: All pets entering our clinic with fleas, ticks, or any other external parasites will be treated for such at the owner's expense.

Please indicate chose of payment for said procedures: Cash _____ Check _____ Credit _____
